Dear Dr. Taylor:

I am submitting on behalf of Morehouse School of Medicine the Second Monitoring Report in response to Dr. Whelan's letter of January 15, 2013. Our submission consists of responses to the Comprehensive Standards for which deficiencies were cited, as well as a Good Cause letter, should it be needed.

It has been a pleasure to become acquainted with you as the new SACS advisor to Morehouse School of Medicine, and we appreciate the advice and counsel you have provided.

If you require additional information, please feel free to contact me at 404/752-1510 or afox@msm.edu.

Thanks again, for your continued support.
